

LEADING THE WAY IN GLOBAL QUALITY ASSURANCE

ADAMAS Consulting is one of the world's largest independent Quality Assurance (QA) consultancy organizations, delivering expert auditing and Quality Management System (QMS) solutions across the global healthcare industry.

With over **25 years of global QA experience**, we support pharmaceutical, biotechnology, and medical device organizations in maintaining compliance, strengthening oversight, and managing regulatory risk.

Technology Innovation. Regulatory Confidence.

ADAMAS Consulting is your trusted regulatory partner for innovating safely and staying inspection ready. The pressure to adopt AI is real, and so is the accountability. We give you independent assurance that your systems, and the vendors behind them, will stand up when the inspector asks.

AT A GLANCE

5,000+

global QA professionals

From top ten pharma to emerging biotech, ADAMAS delivers scalable expertise — combining global reach with agile execution.

OUR CORE CAPABILITIES

ADAMAS provides independent QA auditing and consultancy services across major GxP disciplines, supporting clients from early development through commercialization and ongoing oversight. Our expertise spans:

- Good Clinical Practice (GCP)
- Computer Systems Compliance (CSC)
- Good Pharmacovigilance Practice (GVP)
- Good Laboratory Practice (GLP)
- Regulatory Technology Practice (RTP)
- Good Manufacturing Practice (GMP)

TECH & INSIGHTS

Innovative Data-Driven Quality Assurance

Ensuring real-time insights into compliance risks:

- ADAMAS leverages the use of data-analytics to identify high-risk areas, sites and parameters in real time.
- Enables risk-based audit planning, informed decision making and enhanced inspection readiness.

AURA™ – Risk-Based Pharmacovigilance Audit Planning

Ensuring regulatory integrity of IT and digital systems:

- AURA transforms traditional risk assessment into dynamic, continuous risk evaluation through automated risk-algorithm technology and structured data analytics.
- Supports smarter audit prioritization, improved inspection readiness, and more efficient resource allocation.
